## Welcome to

---

Motivated and detail-oriented Computer Science graduate with strong knowledge of HTML, CSS, JavaScript, React.js, Redux, Git, and GitHub. Skilled in developing responsive and user-friendly web applications through academic and personal projects. Familiar with modern Frontend development concepts, component-based architecture, state management, and REST API integration. Eager to apply technical skills, learn new technologies, and contribute to building high-quality web applications as a React.js Developer.

## Skills

---

- **Frontend Technologies Development:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Redux, Redux Toolkit (RTK), Responsive Web Design
- **Application Development Integration:** Component-Based Architecture, REST API Integration, State Management, Form Handling, Performance Optimization, Reusable UI Components
- **Development Tools Platforms:** Git, GitHub, VS Code, Postman, Chrome DevTools, npm, Yarn, Vercel, Netlify, Figma

## Education

---

**Dr. A.P.J. Abdul Kalam Technical University (AKTU)**, Bachelor of Technology (B.Tech)  
in Computer Science and Data Science

Jun 2022 – May 2026

- CGPA: 7.5/10
- Graduation Year: 2026
- Location: Uttar Pradesh, India

## Projects

---

### Movix (OTT React Web)

[Live Demo](#) 

- Built a responsive OTT platform using React.js, Redux, and Axios to browse and explore trending movies and TV shows.
- Integrated external APIs to fetch movie details, ratings, trailers, and recommendations dynamically.
- Implemented reusable components, state management, and responsive UI for an enhanced user experience.

### E-Shop (E-Commerce Web in React)

[Live Demo](#) 

- Developed a responsive e-commerce web application using React.js, Tailwind CSS, and JavaScript.
- Built reusable UI components for product listings, navigation, and shopping workflows.
- Implemented dynamic product rendering, responsive layouts, and modern user interface design principles.

### Text Converter (React App)

[Live Demo](#) 

- Developed a text manipulation application using React.js and Bootstrap with a responsive user interface.
- Implemented features such as text case conversion, word and character counting, text preview, and copy-to-clipboard functionality.
- Utilized React Hooks and component-based architecture to ensure maintainable and scalable code.

## Personal Information

---

- **Date of Birth:** 01/07/2002
- **Address:** Sector - 44, Noida, Uttar Pradesh, India
- **Languages Known:** English, Hindi
